The GM003 is another of the GPI compact pulse meters. This 1/4” Pulse Meter has an increased flow range and offers the same ability to handle a wide range of fluid viscosities with exceptional levels of repeatability.

### Features and Benefits:

- Up to 1,000 cps viscosity with standard rotor; 1,000,000 high viscosity rotor.
- Compact size and extremely accurate even with viscous fluids.
- High viscosity stainless steel rotor available.
- Meter design minimizes the number of wear-able parts – extending product life.
- Handles particles sizes to 0.005”/0.127 mm.
- Comes with Reed Switch as standard, Hall Effect Sensor* optional.
- Choose from a variety of Output and Display Options.
- Certificate of Accuracy supplied with meter.
